**Time** 4:00 PM – 4:30 PM  
**Subject** MOU signing with National FFA Elected Officers  
**Location** Alm Room  
**Show Time As** Tentative  
 Please join if you are able as the Acting Admin can no longer join National FFA for the first time due to a new obligation at the White House. During this meeting, we thought the present program office leadership (or Tate if you can't make it) could give the FFA student officers an overview of what they do as it pertains to Ag at the agency. Henry will be signing a formal MOU with National FFA towards the end.

Run of Show: Tate will lead and introduce program office heads in attendance. Each program should designate one point person to give a 2-3 min overview of what they do at the agency/ how it relates to Ag.

Attendees (6 Student National Officers + 4 National FFA DC Staff):

#### Students

- \* Luke O'Leary, National President, California
- \* Layni LeBlanc, National Secretary, Louisiana
- \* Shea Booster, National Western Region VP, Oregon
- \* Jordan Stowe, National Southern Region VP, Alabama
- \* Ridge Hugbanks, National Central Region VP, Oklahoma

\* Adrian Schunk, National Eastern Region VP, Michigan

#### National FFA Staff

\* Riley Pagett, National FFA (from Oklahoma, worked for Sen. Lankford and House Ag)

\* Jordan Henry, National FFA

\* Karen Hutchison, National FFA (possible)

\* Jason Martin, National FFA (possible)

#### Background

Future Farmers of America" was founded by a group of young farmers in 1928. (In 1988, the name was changed to the National FFA Organization.) Their mission was to prepare future generations for the challenges of feeding a growing population. National FFA is a national youth organization of more than 670,000 student members as part of local National FFA chapters in all 50 states, Puerto Rico, the U.S. Virgin Islands, and Washington, D.C. They have a very complex state and local officer electoral structure.

#### Talking Points:

\* EPA & National FFA will sign a first-time MOU (Draft for your review is in your binder)

\* This is a first-time nonbinding agreement to enhance cooperation between the EPA and FFA

\* This MOU provides an opportunity to attract, educate, inspire and prepare students for careers and opportunities within today's various environmental fields

\* Next steps- EPA regional ag counselors along with HQ are developing a framework to help with added collaboration between EPA regional offices and FFA state associations and local FFA chapters

\* EPA Environmental Education Grants and Youth & Teacher Awards Programs—There are no funds obligated in the MOU to fund FFA projects, but your team has been trying to expand the traditional applicant pool for our EE programs to non-traditional audiences.

\* EPA's has been trying to expand its reach into rural America. FFA can help us with this.

\* FFA works with many organizations that help can help increase the application pool for the President's Environmental Youth Awards (PEYA) do for engaging with K-12 students as well as the Presidential Innovation Award for Environmental Educators (PIAEE)

\* Ag activities are now included such as projects on water quality standards, reducing food waste, integrated pest management and more.

All,

I wanted to provide you a quick update. We have confirmed the House Energy and Commerce Committee for 1:30PM Friday. We're still working on logistics and finding a location for the House-Wide briefing and for future Senate side briefings. Thank you for the flexibility and I will continue to update you and look for a pre-call time as the final details get confirmed.

Thank you again for your continued flexibility.

To explore the question received below:

Nancy,

We are writing to you at this time because several companies have

pet spot-on registrations that will be expiring in the next several weeks to months and there is ambiguity about the status of these products should this occur. For background, since 2010 EPA has registered pet spot-on products as “conditional” with a two-year expiration date. The result is that such products are in a continuous state of registration submission and review. We have been working with OPP to eliminate this requirement as it is both unnecessary and overly burdensome for EPA and the registrants. Unfortunately, the shutdown has intervened on those discussions and has placed affected manufacturers in a very difficult position. For example, one registrant’s product expires in late January and several additional products will expire in February. Even if EPA were to reopen this week, the backlog of actions due to the shutdown may prevent the Agency from acting on these priorities. In addition, we are concerned that enforcement could occur, or that the states and/or retailers could take action before the registration is addressed.

We need your assistance to prevent expiration of these product registrations. For products that will expire either during or soon after the shutdown ends, we are asking EPA to allow an extension of the conditional registration in order to allow affected companies to respond. We would be happy to share further details and work with EPA on the broader issue of time-limited registrations for these products.

Thanks and I look forward to your response.
